

Description

Available in both horizontal and vertical formats, the new Arc offers a super clean design which will enhance any room in your home. This designer radiator has a subtle finish created from the elliptical brushed stainless steel tubes and its rounded edges. The Arc's desirability makes it one of our bestselling radiators, and rightly so. There is the option to go vertically up the wall, or horizontal under windows. The brushed and polished finishes are held in stock for a speedy delivery but there is also now the option to have a painted finish in around 2 weeks.
