# **Description**

A great example of the style and elegance of the Victorian era, the Mercury 3 column cast iron radiator is a perfect choice to compliment most styles of properties. Unlike some of it's predecessors, the Mercury has a consistency of width and depth between the different heights and models, which means that there is a better aesthetic across the range.

# PRODUCT SHEET: MERCURY 3 COLUMN 660MM

	4	e	a	t	0	u	t	D	u	t
--	---	---	---	---	---	---	---	---	---	---

Heat output per section: 66.4 Watts / 227 BTUs

### **Dimensions**

Leg section height:	660mm
Middle section height:	598mm
Section length:	59mm
Radiator depth:	101mm
Bottom inlet to floor:	100mm
Top inlet to floor:	723mm
Pipe centres to skirting board:	53mm

### Weight

Empty weight leg section:	4.88kg
Empty weight middle section:	4.25kg

#### Internal volume

Internal volume section: 0 69 I

# Construction materials

Radiator sections: Cast iron
End caps and reducing bushes: Cast iron
