

Description

The Radiator Centre has long been a fan of the visually stimulating Oslo radiator from Brandoni, together with its sister radiator the Ocean.

Formed from 30mm x 15mm vertical tubes manipulated to create either a single (OSS), Double (OSD) or criss-cross wave effect (OSC), we have seen the Oslo used to great effect in key living spaces such as Hallways, Living Rooms and Kitchens. It comes in only one height but multiple lengths to offer a wide range of heat outputs. Colours available range from a standard RAL9010 through a range of RAL colours. Chrome/satin chrome is also available in the single version (please call for details).

Product Specifications

Material	Steel
Standard Colours	RAL9010 White
Bespoke Colours	RAL Colours available
Delivery	Approx 4 weeks
Guarantee	5 Years
Outputs	624 - 2245 watts @ Δt 50°C

Head Office

The Radiator Centre, 7 Holywell Hill, St Albans, AL1 1EU

Tel: 01727 840344
